

Your Wedding, Your Way

Your wedding is really very special, something that you will want to cherish for a lifetime.

At PhotoLouis we will help you plan what you want for your keepsake.

I start by spending time with you, to get to know about you and what you want from your photographer. I would typically take some studio portraits or casual portraits well before the big day even starts.

On your wedding day I would typically spend the whole day with you.

Whether you want formal pictures, informal photo journalistic, or a mixture of both, I will be delighted to share your day and take the photographs you desire.

I can of course put together a package to your specific requirements that fits within your budget allocation.

TYPICAL WEDDING PACKAGE INCLUDES

Pre-Wedding Meeting
Pre-Wedding Photo Shoot
Whole Day of Wedding Attendance
All your photos on a DVD

Once your images have been processed they will be available to view online. Your online gallery can optionally be password protected so that only your friends and family can view the images.

When you are completely happy with the processed images we will provide them to you on a DVD for you to do with as you please.

I can create a web site specifically for your wedding, with your own domain name, if you would like me to.

Maybe you would like a personalised guest book with your own photos, invitations or thank you cards.

JUST THE WAY YOU WANT

It's your day to enjoy, no drama, hassle free and relaxed.

We can't promise to solve all your problems but we can promise to unobtrusively capture the day as it unfolds, from when it starts until it ends.
